

Go Study Abroad!

Have you dreamed about having friends all around the world or interesting educational programs taught by recognised professors? It is all closer to you than you can imagine.

As of now, you have a chance to apply and go to study to nearly **30 selected universities in Denmark, the Netherlands, the United Kingdom and many more countries**. Studies are conducted in English and tuition fees for the BA and MA programmes are relatively low or in many cases covered by the local governments.

In the selection you can find **Aarhus University** which is ranked to be one of the 100 world's best universities. You can also apply to **Aberystwyth University** which was placed first in the UK for student satisfaction in 2008 or **Aalborg University** which is famous for its unique problem-based model of teaching. Also the largest fashion and business school in Scandinavia **TEKO** and **Wageningen University**, the leading European university in the Life Sciences are available on the list like many other higher education institutions.

As the next step, fill an online application on the Dream Foundation web page www.dreamfoundation.eu before **10th of March 2010**, take our language test and be ready to pack your suitcase. On the website you can also find a lot of useful information related to studying abroad.

The application fee is **20 €** and no additional costs or deposits will be added. According to our previous experience students have a really good chance to get accepted so we highly recommend applying.

Grab this opportunity and invite your friends as well!

Good luck with applying!

Dream Foundation
